The **Trainer's EDGE** course is an opportunity to review the latest principles and techniques of modern BSA training using various methods and media. The **Trainer's EDGE** will enable you to *sharpen* and *develop* your communication skills – skills that are invaluable for both Scouting and in your personal life and career.

EDGE training will provide ideas and training skills for anyone interested in serving on local district training teams for Cub Scout, Boy Scout, and Venturing leader training. This event is especially designed for all youth and adult members of Summer Camp staff, National Youth Leadership Training staff, District Training teams, Cub Pack Trainers, and anyone who would like to serve in any of these positions. **EDGE** training is a pre-requisite to be eligible for a Woodbadge Staff position. You are not required to currently serve as a member of any training team to attend. Enthusiastic, potential trainers at every level are always welcome.

Pre-course Preparation: You will have the opportunity in EDGE to develop a short presentation on a topic from any BSA materials. You may wish to bring any BSA materials that might aid your development of the presentation such as props, flip charts, markers, laptop, usb drive, etc. Your presentation will allow you to demonstrate the skills of a trainer. You will receive constructive feedback on your presentation from the other participants.

Fill out form below and bring to or mail to the Council Service Center. Online registration is also available www.wtacbsa.org . Please encourage anyone who may be interested to attend this opportunity.
