**What will the Scout learn?**

The Scout will learn the fundamentals of good leadership. These include the skills of motivating people and getting the job done. They are presented in a form that encourages the Scout to practice these skills as they are learned. The Scout will learn the importance of forming a group into a unit that is working together because they want to. The tools of communications, identifying and using resources, representing the group and dealing with problems will all be presented. Your Scout will have an opportunity to practice these skills while learning the kinds of results they can bring. The skills related to planning, effective teaching, and sharing leadership also will be presented. These tools are the ones that will get the job done. Scouts are challenged through various Patrol activities to provide practical, hands on, experience in the use of these skills. The Scout leaves with a "Leadership Tool Kit" to aid him/her in applying his/her newly acquired skills back in the unit.
